

# Invitation

# How does nature work?

## Big Open Day NIOO

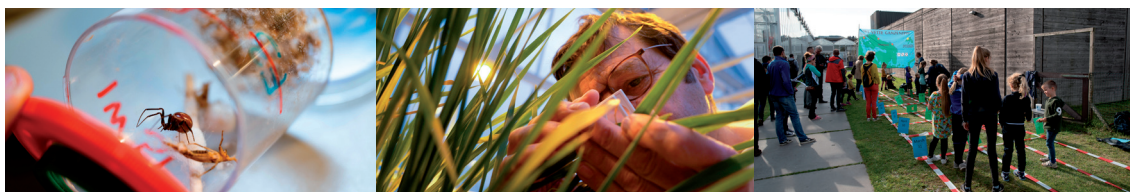

7 October 2023, 11.00 - 17.00

- How to test personality?
- MicrOlympics: secret powers of microbes
- Novel ecosystems: Marker Wadden
- Soil animals up close, and in an opera?!

**On Saturday 7 October, NIOO will open its doors to visitors for our first big Open Day since 2019. Everyone is welcome!**

How does nature work? And how do you study that? What do we already know about biodiversity, climate change and sustainability – and what is still to be discovered? All ages are invited to ask many questions, carry out experiments or playing games like the escape route. And much more: 40+ activities!
