

Soil animals in 2023

What lives under our soil surface?

GREAT NUMBER OF SOIL ANIMALS THANKS TO THE WET SUMMER AND AUTUMN

EARTHWORMS HEAD THE LIST FOR THE 2ND YEAR IN A ROW

SLUGS FOUND FAR MORE OFTEN IN GARDENS THAN IN 2022

OBSERVATIONS FROM THROUGHOUT THE NETHERLANDS

21,044 soil animals spotted

1528 citizen scientists

Average of 42 animals per garden

505 locations

RECORD!!

Biggest chance of soil biodiversity:

- Parks
- Food Forests
- Tiny Forests
- Green gardens
